

# Austability Power Generation

## Capability statement

## Overview

**Austability Power Generation** delivers uninterrupted, cyber-hardened energy solutions for mission-critical operations across the defense and government sectors. We ensure reliable power anytime, anywhere.

- A** Modular
- A** Scalable
- A** Global reach

As part of the **Austability Group**, our operations are built on integrity, speed, and innovation – empowering clients with the secure, standards-driven energy infrastructure they can trust.

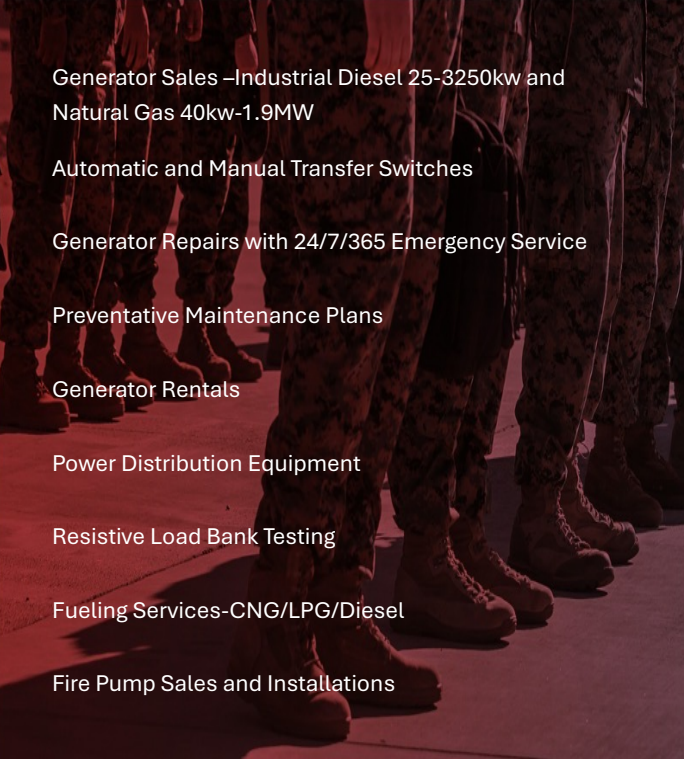

## Capabilities

**Austability Power Generation** delivers rapidly deployable energy systems engineered to meet NATO interoperability standards and national defense procurement requirements.

Our capabilities span:

- A** Turnkey installation
- A** Sustainment
- A** Logistics support

By partnering with the highest quality manufacturers, we enable assured power continuity for expeditionary operations, forward-deployed bases, and mission-critical infrastructure.

Generator Sales –Industrial Diesel 25-3250kw and Natural Gas 40kw-1.9MW

Automatic and Manual Transfer Switches

Generator Repairs with 24/7/365 Emergency Service

Preventative Maintenance Plans

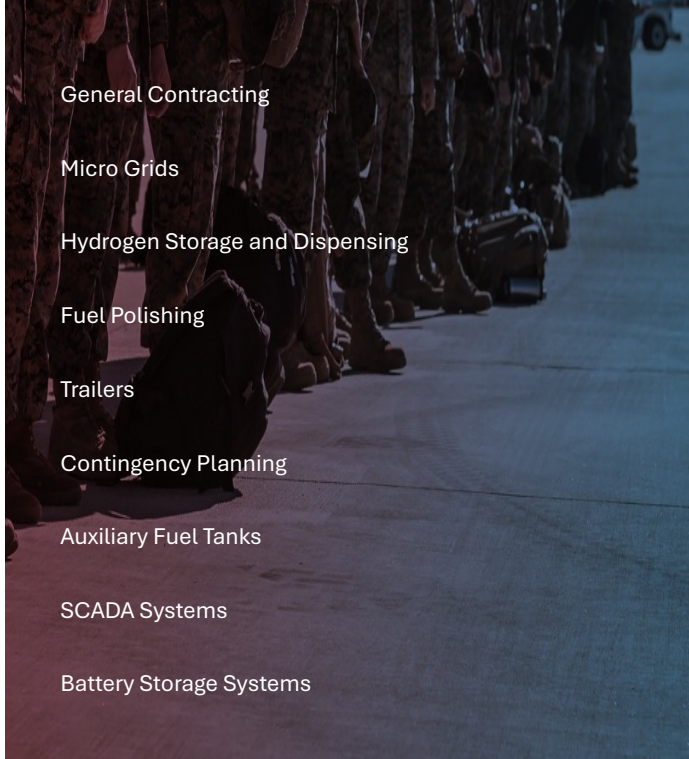

Generator Rentals

Power Distribution Equipment

Resistive Load Bank Testing

Fueling Services-CNG/LPG/Diesel

Fire Pump Sales and Installations

General Contracting

Micro Grids

Hydrogen Storage and Dispensing

Fuel Polishing

Trailers

Contingency Planning

Auxiliary Fuel Tanks

SCADA Systems

Battery Storage Systems

## Differentiators

**Austability Power Generation** distinguishes itself through its strategic alliances, procurement agility, and deep integration with defense contracting frameworks.

Our approach is designed to eliminate margin-on-margin inefficiencies, accelerate deployment timelines, and deliver compliant, cost-effective energy solutions in complex and austere environments.

- A** More than 90% of our workforce have first-hand defense experience giving us deep industry understanding.
- A** Decades of combined industry experience, ensuring effective sustainable and innovative solutions.
- A** Established global operational ecosystem, enhancing the quality and flexibility of our solutions.
- A** Turnkey installation and 24/7 support, offering full-spectrum service from sales to logistics and maintenance.

## Past Performance

### Guam, Western Pacific

Delivered fully integrated backup power solution for military facilities, overcoming severe logistical and environmental challenges. The project included the installation of 14 generators, advanced transfer switches, fire suppression systems, and ballistic-rated fuel tanks, completed in full compliance with military and Buy American Act standards.

### Tinian, Western Pacific

Deliver power generation and electrical infrastructure for critical defense operations on Tinian North Field, overcoming grid and logistical challenges. Enabling continuous operations for construction and facility support, fully compliant with CNMI environmental standards.

### Lviv, Ukraine (Austability)

Design, construct and operate a dedicated Aid Base for children who have lost their parents due to the war in Ukraine.

### Kandahar, Afghanistan (Austability)

Provide health care facilities and related support services at the Kandahar Air Base in the south of Afghanistan. Responsible for the maintenance and operations of the ROLE III hospital.

## Security and Compliance

Robust information technology systems and tools with enterprise-grade security. Aligned to the North American Industry Classification Scheme (NAICS) codes:

Utilities:	22111, 221118, 22112, 221122, 221310, 221320	Construction:	236210, 236220, 237110, 237130, 238210, 23822, 238290, 238910, 23899
Wholesale Trade:	423110, 423120, 423420, 423450, 423490, 423610, 423830	Transportation and Warehousing:	481211, 481212, 481219, 48811, 488119, 488510, 493110, 493120, 493190
Real Estate and Rental and Leasing:	532111, 532112, 532120, 53241, 532411, 532412, 532490	Public Administration:	922140, 922160, 922190, 928110
